SPRING APPLICATION

FEED YOUR LAWN LIKE A PROFESSIONAL

Does your lawn remain green during Winter? If so, you have a cool-season turfgrass!
Scan the QR code or visit tri-linksolutions.com/allseasons for help determining your grass type.

DO NOT USE on Centipede or St. Augustinegrass lawns. Use our separate line of fertilizer specifically designed for Centipede and St. Augustinegrass.
Para información en Español y indentificar su césped, escanee el código QR o consulte tri-linksolutions.com/allseasons

COVERS 5000 SQ. FT. NET WT. 15lbs (6.80kg)

COOL SEASON GRASS FERTILIZER

WITH ADDED TRI-LINK IMPACT™ HUMATE

DIRECTIONS FOR USE

BEFORE APPLYING

- 1) Determine your grass type to choose the correct fertilizer. If help is needed to determine grass type, visit tri-linksolutions.com/allseasons
- 2) Select appropriate product according to season – Step 1: Spring Application, Step 2: Summer Application, Step 3: Fall Application. USE ON ESTABLISHED LAWNS.
- 3) Determine the application area of your lawn. Subtract any non-lawn areas within that application area.
- 4) Each pail covers approximately 5,000 square feet.

WHEN TO APPLY

- 1) Apply STEP 1 during the Spring, apply STEP 2 in Summer, and apply STEP 3 during Fall. Each STEP provides season-long nutrition.
- 2) Apply when the grass foliage is dry. If possible, water lawn following fertilizer application. Keep children and pets out until lawn is dry.

HOW TO APPLY AND AMOUNT

- 1) Set spreader to approximate setting as shown in the chart below. These settings are for applying 3 lbs of product per 1,000 sq ft. APPLY APPROPRIATE PRODUCT ONCE PER SEASON.
- 2) Fill your spreader on a stable area, away from your lawn. Apply only to actively growing turf. Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn, and sweep any product that lands in driveway, sidewalk, or street, back onto your lawn. Check with your local Cooperative Extension Agency to obtain specific information on local turf best management practices. Check with your county or city government to determine if there are local regulations for fertilizer use.
- 3) Start by spreading fertilizer around the border of the lawn. Then make even, parallel passes across your lawn spaced according to spreader specifications. Walk at a steady pace to maintain consistent spread rate.

Approximate Spreader Settings*

ROTARY SPREADERS

SCOTTS® Turf Builder EdgeGuard® (DLX and Mini).....	7.5
SCOTTS® SpeedyGreen™ (1000 and 3000).....	7.5
SCOTTS® SpeedyGreen™ 2000.....	8.5
Lesco® Spreader	19
Anderson's (AccuPro® and SR-2000®)	0
Earthway® EV-N-SPRED®.....	18.75
DROP SPREADER: SCOTTS® AccuGreen (1000 and 3000).....	7

*Suggested Spreader Settings provide the approximate spreader setting to achieve a 3 lb per 1000 sq. ft. application rate. Perform a proper spreader calibration to ensure correct application rate.

WHAT MAKES TRI-LINK ALL SEASONS™ A PREMIER LAWN FERTILIZER?

- Products specifically formulated to meet the nutritional demands of all grasses.
- Easy three-step process (Spring, Summer, and Fall) to provide annual lawn nutrition.
- Added Tri-Link IMPACT™ Humate to prolong the life of your soil.
- Slow-Release Nitrogen Technology to promote consistent plant uptake.
- Made by turf experts who service the golf industry.

GUARANTEED ANALYSIS
