

Tri-Link

Fertile-Wet

Wetting Agent

Reduced Dew Formation

Enhanced Water Infiltration

Convenient Fertigation Use

Tri-Link Fertile-Wet is a safe and effective wetting agent designed for broadcast spray applications or direct injection into irrigation fertigation systems to better manage soil moisture.

Active Ingredients

Alkyl and Alkylaryl Polyoxyethylene Glycol.....80%
Inert Ingredients.....20%

Surfactants in Tri-Link Fertile-Wet are exempt from the requirements of tolerance under Title 40 CFR 180.1001(d)

Information about the components of this fertilizer material may be obtained by writing to Tri-Link Solutions and giving the lot number found on the container.

Storage

Store in the original container in a cool (above 32°F), secure area inaccessible to children, pets, domestic animals or wildlife. Keep product container tightly closed. Do not reuse empty containers. Triple rinse (or equivalent) then offer for recycling or disposal by procedures approved by state or local authorities.

CONDITIONS OF SALE: Tri-County Fertilizer (Company) warrants that this product conforms to the chemical description of the label and is reasonably fit for the purposes stated on the label when used in accordance with the directions under normal use. This warranty does not extend to the use of this product contrary to label instruction, or under abnormal use conditions, or under conditions not reasonably foreseen by the company.

THE COMPANY DISCLAIMS ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING ANY WARRANTY OF FITNESS OR MERCHANTABILITY. THE COMPANY SHALL NOT BE LIABLE FOR CONSEQUENTIAL, SPECIAL, OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, AND THE COMPANY'S SOLE LIABILITY AND BUYER'S AND USER'S EXCLUSIVE REMEDY SHALL BE LIMITED TO THE REFUND OF THE PURCHASE PRICE. BUYER AND SELLER ACKNOWLEDGE AND ASSUME ALL RISKS AND LIABILITY RESULTING FROM HANDLING, STORAGE AND USE OF THIS PRODUCT. THE COMPANY DOES NOT AUTHORIZE ANY AGENT OR REPRESENTATIVE TO MAKE ANY OTHER WARRANTY, GUARANTEE OR REPRESENTATION CONCERNING THIS PRODUCT.

Directions for Use

For best results, apply prior to the onset of stress to turf maintained above 0.5 inch height of cut: **Apply 8-12 fl. oz./Acre**

Fertigation Application – set pump to **apply 8-12 fl oz./Acre** per irrigation cycle. This should equate to 5-10 gallons of Fertile-Wet per irrigation cycle for use on 80-100 acres or 1-2 gallons per 100,000 gallons of irrigation water.

Apply throughout the growing season as needed. If tank-mixing, perform jar test to ensure compatibility. Apply in a minimum of 30 GPA during broadcast spray applications.

If fertigation pump capacity is too large to directly apply this rate of Tri-Link Fertile-Wet, product may be diluted prior to injection.

Volume (gal)	Net Weight
15	150 lbs (68 kg)
30	475 lbs (216 kg)
200	2,150 lbs (977 kg)
225	2,400 lbs (1,091 kg)

Precautionary Statements

Read label before use. Harmful if swallowed. Causes skin irritation and serious eye irritation. Wash protective equipment and work clothes thoroughly after handling. Do not eat, drink or smoke when using this product. Wear personal protective equipment.

First Aid

If in Eyes: Thoroughly flush with water. If irritation persists, seek medical attention.
If on Skin: Wash thoroughly with soap and water.
If Inhaled: Remove person from exposure. Call 911 if breathing is difficult.
If Ingested: Do not induce vomiting. Rinse mouth and sip water. Seek immediate medical attention.

Have the product label with you when seeking medical attention.
